Family Constellations

Systemic work to gain insight into the deeper causes of personal issues

Discover the hidden family patterns that shape your life and release unconscious blockages through Family Constellation work. This powerful therapeutic approach reveals and heals unresolved emotional entanglements inherited from past generations, bringing clarity, balance, and inner peace.

How it works

- In a group setting, participants explore personal challenges through a guided, intuitive process.
- Others act as representatives for family members or key elements of the issue.
- Unconscious dynamics, emotions, and ancestral patterns come to light naturally.
- Through healing movements, resolution and transformation take place, allowing deep emotional release.

Benefits

- Break free from limiting generational patterns
- Gain clarity on personal and relationship challenges
- Heal unresolved family wounds and find reconciliation
- Release emotional blockages affecting health and success
- Restore harmony, connection, and a sense of belonging

Shedule

Fr/ Sa 9h30 - 20h

Sunday 09h - 18h

There will be a break for lunch.

Refreshments are available throughout.
