Family Constellations

Systemic work to gain insight into the deeper causes of personal issues

Discover the hidden family patterns that shape your life and release unconscious blockages through Family Constellation work — revealing and healing emotional entanglements inherited from past generations, bringing clarity, balance, and inner peace.

HOW IT WORKS

- In a group setting, the seeker explores a personal challenge through a guided, intuitive process.
- Others act as representatives for family members or key elements of the issue.
- Unconscious dynamics, emotions, and ancestral patterns come to light naturally.
- Through healing movements, resolution and transformation take place.

BENEFITS

- Break free from limiting generational patterns
- Gain clarity on personal and relationship challenges
- Heal unresolved family wounds and find reconciliation
- Restore harmony, connection, and a sense of belonging

TWO WAYS TO PARTICIPATE

- As a Seeker (9 places) — bring your personal family question and set up your constellation.
- As a Representative — support others, following intuitive body sensations.
